

# Polyurethane Finish Cork Tiles: Stock

Cork is, by volume, 85% air. It is one of the softest resilient floors made.

Shhhhh! All that air makes cork a great sound insulator, so you will hear less of your neighbors. Cork has been installed at the Morgan Library for well over a century.

Cork bark is peeled every 12 years; not a single tree is cut down. Cork flooring is composed of 100% post-industrial recycled content from wine-stopper production.

Size: 12" x 12" x 3/16"

Colorways:

Light

Dark
